

**PARKBY PVT. LTD.**

## **INTERNSHIP OFFER LETTER**

**Date: 16/08/2025**

**CIN: U74999MH2016NPL288284**

**Dear Apurva Kumbhare,**

**We are delighted to welcome you to ParkBy – an AI-based real-time smart parking and mobility startup, incubated under RCOEM TBI Foundation.**

We are pleased to offer you the position of **Software Development Intern** at ParkBy. As a valued member of our innovation-driven team, you will get the opportunity to work on cutting-edge technologies and gain hands-on experience in software development, AI, and smart parking systems that are shaping the future of urban mobility.

Your internship will commence on **20th August 2025** in offline mode. This program is designed to not just provide technical exposure but also to nurture creativity, problem-solving, and teamwork. You will be contributing to a real-world solution that impacts cities and people's lives, while also learning skills that will empower your career.

By accepting this offer, you acknowledge that this internship is an educational experience and not an employment contract. Successful completion of the program does not entitle you to a job at ParkBy, but it will equip you with knowledge, exposure, and mentorship that go beyond the classroom.

As part of ParkBy, we expect you to carry forward our values of **innovation, collaboration, and responsibility**, while respecting company policies applicable to interns.

We are truly excited to have you onboard and look forward to seeing you contribute your talent, energy, and ideas. Together, we aim to redefine parking, empower mobility, and build smarter cities.

**Welcome to ParkBy!**

**Best Regards**

**Yash Ghoderao**
